# RESHMA SRI MURAKONDA

Ottawa, ON, Canada | Email | LinkedIn | GitHub | Personal Portfolio

## PROFESSIONAL SUMMARY

Computer Science graduate with a strong foundation in software development, programming, databases, and computer systems. Hands-on experience developing applications using Python, C, C++, SQL, and JavaScript through academic and personal projects. Experienced with backend development, REST APIs, Linux environments, version control, and modern development workflows. Strong problem-solving, teamwork, and communication skills with an interest in developing practical software solutions.

## EDUCATION

**Bachelor of Computer Science (Honours)**
**Minors in Law and Psychology**
Carleton University, Ottawa | Graduated: April 2026

## TECHNICAL SKILLS

- **Languages**: Python, C, C++, SQL, JavaScript, Java
- **Tools**: MongoDB, HTML, CSS, Flask, Node.js, Express.js, REST APIs
- **CI/CD**: Git, GitHub, Linux, GitHub Actions, Ubuntu, VirtualBox
- **Development Skills:** Object-Oriented Programming, Data Structures and Algorithms, Software Engineering, Client-Server Architecture, Debugging, Problem Solving
- **Professional Skills**: Teamwork, Communication, Adaptability, Analytical Thinking
- **Additional Exposure**: Generative AI, LLM API Integration, Prompt Engineering, Data Analysis

## SOFTWARE PROJECT EXPERIENCE

**FutureSelfAI**
**Personalized Goal Planning Application | Personal Project | July 2026**
Python | Flask | JavaScript | HTML/CSS | Gemini API

- Developed a full-stack web application that collects users' goals, positive habits, negative habits, and challenges to generate personalized goal-planning recommendations.
- Built the backend using Python and Flask and applied independently learned generative AI concepts to integrate the Gemini API for processing natural-language input and generating structured responses.

**WedLuk**
**AI-Powered Matrimony Platform | Team Project | April 2026 – Present**

- Contributed to the development of an AI-assisted matchmaking platform designed around user preferences, compatibility, and personalized interactions.
- Participated in requirements analysis, conversation-flow design, testing, and iterative development across MVP and release-candidate stages.
- Collaborated with team members to improve application workflows, user experience, and privacy-focused matchmaking functionality.

## RELEVANT COURSEWORK

Software Engineering | Operating Systems | Distributed Computing | Web Development | Data Structures & Algorithms | Object-Oriented Programming | Database & Data Management | Computer Networks

## LEADERSHIP & COMMUNITY INVOLVEMENT

**First Year Connections Peer Mentor**
**Carleton University | 2024 – 2026**

- Mentored first-year students through regular one-on-one meetings, supporting their academic goals and transition into the university community.
- Supported up to six mentees while completing mentor training, participating in team meetings, connecting students with appropriate resources, and managing ongoing administrative responsibilities.

**Central Facilitator - Fall Orientation**
**Carleton University | 2024 – 2025**

- Supported incoming students during Fall Orientation by providing information about campus resources, facilitating activities, and fostering connections within the university community.
- Collaborated with other facilitators while demonstrating leadership, communication, teamwork, problem-solving, and interpersonal skills.

**Additional Campus Involvement**
**International Student Services Office (ISSO) - Student Volunteer**

- Supported programs and events that helped international and exchange students connect with the Carleton community and adjust to university life in Canada.

**CUSA Women's Centre - Student Volunteer**

- Supported campus initiatives, awareness activities, and community programming while collaborating with other volunteers to provide an inclusive student environment.

**Paul Menton Centre (PMC) - Volunteer Notetaker**

- Prepared and shared clear, organized lecture notes to support students receiving academic accommodations, demonstrating reliability, organization, and attention to detail.

**Academic Orientation Day - Volunteer**

- Helped incoming students navigate campus, find resources and locations, and transition into the university academic environment.

**SOAR! Student Leadership Conference - Volunteer**

- Supported conference operations including registration, technical support during educational sessions, and event coordination.
